Keeps Hair In Curl On Hot or Windy Days

Here's a hoir-curing secret that is decidedly "worth while." Just apply a little liquid silmerine before doing up the hair, using a clean tooth brush for the purpose, drawing this down the hair from crown to the in three hours you will have as beautiful curis and waves as you could wish for. The waviness will look so natural no one will guess it was artificially acquired. And it will last ever so long, regardless of heat, wind or dampness.

You can obtain liquid silmerine at any drug store, and a few ounces will last a long time. It is neither sticky nor greasy and is pleasant to use. It is doubly useful because of also serving as a beneficial dressing, keeping the hair soft, silky and justrous.—Adv.

Lonesome Bear also had found a root, and he seemed very happy. "Of course there aren't any buried bones here," he grunted; tearing at the root with his teeth. "Who wants old buried bones when one can get nice, fresh, "weet roots?" Saying this, Lonesome Bear began to eat the root he had found. Finally Toddie Pupkins struck some-
